Biography

Dr Xie Huiting is a state registered mental health nurse who serves in a major public mental health facility and at the local and international chapter of Nursing associations, contributing towards the branding and development of nursing scholarship and the profession. Her experience spans over clinical practice, education and research. She is currently a Senior Nurse Educator and brings with her vast experience of designing and organizing educational activities for nurses and students in the area of mental health nursing, research and evidence-based practices. She has worked extensively with mental health consumers in a variety of mental health settings, partnering with community agencies to promote health, prevent and manage various health conditions. In her professional practice, she employs research, systematic reviews or evidence-based methods/practices to advance nursing scholarship and supports the implementation of evidence to meet the needs of consumers, family/ carer and people in the wider community.
