Cough

Breathlessness

Runny nose

Loss of smell

The Infectious Diseases Act requires a person who has reason to suspect that he is a case or carrier of COVID-19, or has had contact with a person with COVID-19, to act in a responsible manner to not expose other persons to the risk of infection by the disease.

**To minimise the spread of infections,
all visitors to IMH have to wear a mask.**

You may experience delays for:

- Entry to IMH
- Visits at the clinics and Emergency Services

Thank you for your understanding.
